**GLEICHEN BOY A
LEADING AD. WRITER
WINDOW DECORATOR**

Russel Matthews is evidently becoming one of the Canada's leading ad. writers and window decorators. Russel wrote his first ads for the Call when his father was in business in

Gleichen also learned the art of window decorating in Gleichen when working her for his father and also was employed by a number of our local tradesmen. Since leaving Gleichen he has been in the employ of the David Spencer Ltd. and his friends will be pleased to read the appended taken from the Nannaimo Free Press.

erator for the David Spencer Co., Ltd., Nanaimo, is due credit for one of the most unique and appealing ideas of many which have been brought forth

in the city for Hospital Week. Mr. Matthews has decorated the large windows at the Malaspina Hotel, and also a large display window of the Spedter store, and in both he has

worked out separate ideas, each of which, besides displaying artistic ability, contains an appeal which but few can miss or refuse.

The Malaspina Hotel windows are transformed into a hospital ward, where four babies are receiving the ministrations and care of two nurses. Overlooking the scene is a large ni-

...the scene is a large picture, appropriately draped in flags and bunting, of Queen Victoria. One nurse is holding a baby, which she has apparently just bathed and dressed, and

made happy for the day with various small toys. She is addressing another nurse, standing at the other end of the room, who has been attending a small figure lying in a crib, asleep.

with a toy cow sticking its head absurdly through the bars of the crib, and looking particularly woolley and cuddley and nice to play with. Two other little tots are shown asleep in

Other little toys are known asleep in their cribs, with various toys scattered about, while in the centre of the room, on a neatly printed card are the words: "May 20-25, Hospital."

Week. Do your bit to Help Care for the Kiddies."

looks a scene of simplicity, but one which strikes home. • A huge, red heart stands in the background. In front, and a cute little girl, dressed in a uniform, made of crepe paper, and

she is holding a long ribbon attached to the heart. From the centre of the heart itself, emerges a string of doliabills, the further end of which drops into a box set in the middle of the

window, the wording of the box be in "Hospital Funds." The whole idea of the picture is to impress upon the beholder the necessity of "giving from the heart."

EN COMMUNITY HALL

WORLD HAPPINGS BRIEFLY TOLD

Director Baerle of the Zepplin works has gone to Tokyo to prepare for the arrival of the Great Zepplin there on its cruise around the world.

A participant in both Irish rebellions, George Buchanan, 82, who came to the West as a prospector, has the Red River expedition under Sir Garnett Wolseley, is dead at his home in Winnipeg.

England and Wales have decreased in population by 441,112 persons in the first quarter of this year, when compared to an increase of 141,111 persons for the same quarter of 1928, is causing some alarm.

John, Mrs. Justice Riddell, Toronto, was elected president of the Canadian Social Hygiene Council at the annual meeting in Montreal. Judge Emily Murphy, Edmonton, and Dr. H. E. Young, Victoria, B.C., were also elected vice-presidents.

The great appeal flying has been for the university student resulted in the department of national defence receiving more applications than it could accept. The course at Camp Borden than it has facilities to accommodate. The new ones will have forty students.

Prof. C. MacIntosh, a native of Canada and professor of theology in Yale Divinity School, who would not promise to defend the Western Canadian Quakers Association, an international criticism by Federal Judge Warren.

Frank G. J. McDonough, of Toronto, was elected president of the Canadian Pensioners' Association at its fourth annual meeting in Vancouver. There is a large increase in membership was reported from Ontario.

Arthur Thomas, 19-year-old bandit who held up the Grandview branch of the Royal Bank of Canada at Vancouver, escaping with some four thousand dollars, is sentenced to police custody by Magistrate H. C. Shaw to five years in the penitentiary.

If the organized system of cattle rustling by truck is not checked immediately, Saskatchewan and British Columbia and the entire west will be great losers, according to those in attendance at the seventh annual convention of the Saskatchewan Stock Growers' Association, at their current session.

Plans To Canoe Down the Fraser

Young German Journalist To Commence Adventurous Canoe Trip

In the track of the great explorers of the first white men to lay eyes on the Pacific coast a young German journalist is about to start an adventurous canoe journey down the Fraser and the Thompson Rivers to Vancouver. Arriving in Jasper from Edmonton where he took a preliminary survey of the route.

Fraser and the Thompson Rivers to Vancouver. Arriving in Jasper from Edmonton where he took a preliminary survey of the route. The young adventurer, who has written a number of books on outdoor subjects, is also a lecturer of prominence in Germany and has written and produced scenarios of river and lake travel.

By movie and still photograph and by the written and the spoken word, he will carry Canada back to Europe. His canoe is a folding one weighing only 35 pounds and easily carried on a man's back and is modelled after the Eskimo kayaks.

Mexican Jumping Bean The Mexican jumping bean does so because of a little worm known by which coils itself and lets itself go like a catapult, carrying its host along with it. The worm lives in the bean all the time, and if a hole is made in the shell, it fills it up again.

Canadian Amateur Golf Championship

Entries Restricted To Players With Handicaps Of Ten and Close

Entries for the Canadian Amateur Golf Championship to be played over the Jasper Park Lodge course, Jasper, Alberta, August 19 to 24, will close on August 1, according to announcement made by C. B. Harvey, president of the R.C.G.A.

Positively no entries will be accepted after that date. Mr. Harvey said, and it will be necessary for those who desire to play to have their entries in the hands of B. L. Anderson, secretary of the R.C.G.A., Hamilton, Ontario, before August 1.

Players entering the Canadian championship will have a certain handicap of ten or less. Figuring on this basis, it is believed that about 100 players will take part in the qualifying round of the major event at Jasper in August, the figures being arrived at as follows: Eastern Canada, 20; Manitoba, 15; Saskatchewan, 10; Alberta, 20; British Columbia, 10; and the United States, 15.

A much larger entry list is expected for the Western Canadian Amateur Championship which will be played over the Jasper course at the same time. This event is open to players with a registered handicap of 16 or less. Entries for this event should be sent to the hands of James Mackenzie, Winnipeg, secretary of the Western Canadian Golf Association, not later than August 1, though in special circumstances past entries will be accepted at Jasper.

The great appeal flying has been for the university student resulted in the department of national defence receiving more applications than it could accept. The course at Camp Borden than it has facilities to accommodate. The new ones will have forty students.

Huge New Laboratory For Cancer Research

Greatest In World Is To Be Established in Chicago

The greatest cancer research laboratory in the world is to be established in Chicago in connection with the Cook County Hospital.

This was the announcement by Dr. Charles Mayo, of Rochester, Minn., Dr. Mayo ventured the opinion that the institute will be in operation by August 1, 1929.

Edwin N. Hurley, civic leader, and former head of the United States Shipping board, is to be chairman of a local board and also of a national advisory board for the clinic, the doctor said. Asked what his own part would be, he replied deprecatingly:

"It will be just a general deliverer."

Dr. Mayo, for a year has been working to bring the plan to fruition.

A great part of the work is to be carried on by research workers of the University of Chicago and the Northwestern University, Loyal, Ill., and the University of Illinois. There have been conferences with representatives of the schools in the past few months.

All of these local committees and groups which already have taken up the cancer problem and have become interested in the project, are represented on the local board," Dr. Mayo said.

In the main the membership of the national advisory board will be made up of doctors.

Urges Research To Solve Farm Problems

Need Is Paramount Says Former Governor Of Illinois

Frank O. Lowden, former governor of Illinois, as the commencement speaker at the University of Oregon, said that research was the greatest weapon of the age with which to combat what he termed a "practical agricultural problem."

"The history of civilization," Lowden said, "has shown that cities and countries have gone to ruin and decay when the soil of the country became more and more depleted. This is the fact that cities are drawing more and more of the most fertile people from the farm represents the problems that this country is now all other countries face."

"Improvement of soil comes when farmers, to meet forced overproduction, grow up crops which, year after year next year, will be continued," rather than crops which they should to earth and preserve the soil.

"For research, not only in material sciences, but in economic and social phases as well, is paramount," Lowden asserted. "Research should extend particularly to distribution of products."

British Aviator Is Awarded Gold Medal

Hinkler Receives Gold Medal For Flight To Australia and Back

British aviator, Hinkler, announced that he plans to start another sensational flight, probably from England, within the next few months.

Hinkler, who was awarded the international aeronautics congress gold medal for his flight from England to Australia and back, declined to reveal any further information about his plan. He said he would start in England in the next two months before attempting the proposed flight.

Count Vaux presented the gold medal to the famous flier, explaining that the flight was "a million in the evolution of air warfare." Hinkler was cheered by a assembly of aviation representatives from all parts of the world. He later signed his name in the federal register of England which contains only the names of Col. Charles A. Lindbergh, Francisco de Pinedo and Sir Alan Coburn—all winners of the gold medal.

Diatomite In Canada

Diatomite is a very light, white, powdery substance, composed of microscopically small silicious shells, called diatoms, and is found in the bottom of certain lakes or in some beds having the appearance and hardness of chalk, sometimes hundreds of feet thick. There are more than 100 known occurrences of this mineral in Canada, a few of which are of sufficient size to be worked commercially.

Amalgam Gold In Gratitude

We Saw Approach The Mine. And in one voice, though many

of them were poor men, they said:

"The East and West, the North and South,

"Gold, silver, copper, field, and

Cathedral, church and humble

Their grateful message lay

On the face of the land.

Great peace in all this Empire.

Great peace throughout the world;

May every people sing this praise,

With every day and every hour.

Amens.

Teachers in schools throughout the west may secure copies of this

"Hymn Of Gratitude" in its original form by writing to the composer,

Mr. W. B. Dyer, 4 Fairview Avenue, Toronto, and enclosing postage

to cover the cost of mailing.

WHERE WHITE MEN LIVE

This Little Red Cross Outpost at Pouze Couc, in the West North of the Province of Alberta. Situated 489 miles from the West of Edmonton, it is 80 miles from the end of the line.

Formerly the buffalo and Indian held sway, but today the Pale faces are establishing themselves in splendid settlement, forging ahead with a type of civilization that does honour to the pioneer "Pilgrim Fathers" of this country.

Thanks to the Red Cross vision and extension service, this district is no longer a place where Red men live, but where "White Men Live" for the benefit of the Greatest Mother embraces six settlements in an area of three hundred miles.

All of these local committees and groups which already have taken up the cancer problem and have become interested in the project, are represented on the local board," Dr. Mayo said.

In the main the membership of the national advisory board will be made up of doctors.

Holds Important Office

British's First Woman Cabinet Minister Will Be Filled For Position

Miss Margaret Bondfield has been given an important office in the Labor government. She is Minister of Labor and the first woman to hold cabinet rank in any British administration.

She is also a member of the Privy Council. Miss Bondfield is a former president of the Trades Union Congress and has been active in the labor movement since 1904.

A valuable report on child migration to Canada was produced by Miss Bondfield in 1924, when she was parliamentary secretary of the department. She is now minister of labor.

Once, when bidding farewell to a party of domestics going to Australia, she said: "I have seen the mistresses of the house have a right to expect a 'good, honest day's work'."

The appointment to cabinet rank of Miss Margaret Bondfield is a recognition of her services to the labor movement. She has been a prominent figure in the labor movement since 1904.

Canada's Newswriter

Canada led all other countries of the world by a wide margin in the production and export of newspaper pages during 1928, according to the figures of the News Print Service

of the United States. In 1928, the total output of newspapers in Canada amounted to 2,281,000 tons, this representing one-third of the world's total output, while Canadian exports amounted to 2,207,000 tons, a volume equal to those of all other countries put together.

Weather maps can be transmitted to ships at sea with a new radio sending device invented by a Washington engineer.

Air Routes For Alberta

Three Are Likely To Be Established Very Shortly

Establishment of three main Alberta air routes by early next year, one leading east from Canmore to Montreal, one north from Edmonton to the Mackenzie River, and one south from either Calgary or Edmonton to Seattle, on the international border, are the chief probable developments at Ottawa in the near future, emphasized by H. B. Adams, member for East Calgary, on return to the city.

The matter of the air mail routes, Mr. Adams stated, had taken up a large and consequently consuming part of the question of award of the contract for the East and West route, he said.

It was understood, he claimed, the amalgamation of three Western aviation companies into one concern, under the heading of the Western Airways, Limited, of Calgary, had simplified matters considerably, and had greatly increased the likelihood of a split in the main contract. "The split, if it takes place," he said, "will make it necessary for one company to operate from the East to Regina, and the other company to operate from Regina to the West."

As soon as the matter of the mail route across the continent as far as Canmore has been decided, he continued, the government would in all probability take up the establishment of routes North and South. These, he pointed out, would connect with Southern Alberta.

By next spring, moreover, Mr. Adams stated, it was very possible that everything would be ready to establish the first link of the air mail route to Pacific air mail service, the route over the Rockies to Vancouver. Although a recent press notice had implied that this route would be from Canmore to Vancouver, Mr. Adams stated emphatically that no decision on that score had been made.

That a survey by the Department of Aviation would take place during the summer, he mentioned. After flying men, he mentioned, had been sent to examine the proposed route from Calgary via New Westminster.

The Vimy Monument

Credited With Being the First Of Any In the Battlefields Area

"The Vimy monument is the finest any in the battle area," declared Hon. Herbert Mackenzie, minister of the interior, upon his return to Ottawa from a visit to the battlefields. He was accompanied by Mr. Marler, who is sailing for Tokyo from Vancouver on August 29, aboard the ship "Vimy."

Mr. Mackenzie, who is minister of the interior and France on business matters and while over there was received by the Prince of Wales. The Prince said, Mr. Marler, showed him the Vimy monument, and the number of questions about the monument.

"After spending some little time in England, I went to France, and saw the battlefields. The Vimy monument is the finest of monuments that have been erected there of Canada are the best of any in the battle area. On it are to be sculptured the names of 11,000 Canadian soldiers who fell at Vimy," he said.

In Waterless Lake Park

Waterless lakes in Waterless Lake park, Alberta, were named by Lieut. T. Blakiston, R.A., who visited the territory with the Palliser expedition in 1857.

He named them after the names of the monuments that have been erected there of Canada are the best of any in the battle area. On it are to be sculptured the names of 11,000 Canadian soldiers who fell at Vimy," he said.

The Sounder the Better

Two spinsters of uncertain name were exchanging comments on the subject.

One said: "My dear, which would you prefer in a husband, wealth or poverty?"

"Oh, appearance by all means, and I want him to appear pretty soon, too."

Quite So

Traveler: "You have a wonderful country of peace, this Canada. What do you do with those you can't use?"

Hotel Manager: "The peace can be used for the war."

Traveler: "We adopt the same principle with our orders. What can't we use?"

"The poor we have ever with us."

"Yes; and aren't their flowers a nuisance?"

"My darling, if I had to choose between a flower and a million pounds, I would break my heart to have to choose the millions."

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Spare the Wild Flowers

Possibly nothing is so much a part of our lives from the cradle to the grave as flowers. Set the infant down amongst wild flowers, and immediately he wants to eat them all. Then the wee tottler arrives with something for "Mom." The chubby little fist will only contain a badly crushed dandelion, but in his eyes it is very precious.

We all remember the schoolroom the morning after the circus. No one had done any homework, so our teacher's desk looked like a condensed flower show. The dear lady (may her grave be covered with violets!) tried to look very severe and pretended she could not find her strap, till Fatty puffed in ten minutes late with a bouquet of seven enormous sunflowers for "teacher." Then she had to laugh, and we roared. She stood the sunflowers in the corner where she had so often stood Fatty and gave us all double homework, which we all carefully prepared. Next comes the careful selection of flowers for the "only girl" and the sight of the obnoxious bunch the other fellow brought. So it goes on all through life, in times of joy, and times of grief, flowers will bring messages of goodwill and hope into our lives.

And how old and young alike welcome the first flowers of Spring, and rejoice in the ever recurring miracle of the tiny seeds developing so rapidly until flowers in all their multi-colored varieties turn the long bleak garden into a thing of beauty, and the unattractive bulb produces blooms of exquisite loveliness.

In isolated parts of Canada's great national parks, and in remote parts of this great Dominion as yet unspoiled by man, wild flowers are as beautiful, so plentiful, and in such variety, that one is filled with rapture akin to reverence at the knowledge that so much beauty could be found in one place. It is difficult to realize that there was a time when beautiful flowers grew in profusion all over the park. The thoughtless and excessive gathering of flowers has completely removed many of the most beautiful examples from the easily accessible places where weeds now predominate.

The threatened extinction of the most attractive of our park wild flowers has become a serious problem to the park authorities. The distinction between a flower and a weed is, in a measure, only a question of scarcity or abundance; their desirability depends as a rule on their rarity. The man who could so popularize the dandelion, the stinkweed and the thistle, that they would be gathered in preference to the avalanche lily, the columbine and the lady's slipper, would become immensely popular with the park authorities. Unfortunately the gathering of a bouquet of these weeds would create about the same amount of hilarity as the amateur duck hunter proudly displaying his bag of mud hens.

According to the park laws, the man who chops down a lot of beautiful trees merely to hear them crash, and the man who fills his car with wild flowers merely to throw them out withered and useless at the next stop, are both equally guilty, and both are liable to a heavy fine. While ninety-nine out of every hundred tourists would view with satisfaction the arrest and subsequent punishment of the tree chopper, only one out of the same hundred would not consider the flower waster a victim of oppression were the same treatment meted out to him as to the tree chopper. The reason is that flower picking has become a universal habit, which habit on the part of a selfish or greedy individual becomes a nuisance, depriving others of the enjoyment of the flowers which he only appreciates in the getting. A striking contrast is the lover of flowers who sparingly and carefully preserves his specimens for reference, or visits the growing flower many times to study its development.

If the tourist would only realize that the unpicked flower will retain its beauty for days and add greatly to the pleasure of many future tourists, while the picked flowers only lasts a half-hour or so, when it becomes a sorry wreck and is thrown away in disgust to bring no pleasant memories to anyone!

The tourist traffic has become a great asset to Canada. It is a financial asset of hundreds of millions of dollars annually. But it is more than that—it brings tens of thousands of people from other countries who come to know and love Canada. This intermingling of peoples makes for understanding, goodwill, and world peace. But tourists will not flock to barren, weedy wastes, and unattractive countryside. They come to view and enjoy the beauty that is Canada, the grandeur of its scenery, its lakes and rivers, forests and mountains, and its unspoiled natural beauty.

Every flower uprooted and soon thrown away, every blossom thoughtlessly picked instead of being left to bloom and re-seed itself for next year, is a serious depreciation of that great national asset, and an ultimate enormous loss to Canada.

Think it over the next time you are tempted to pick an armful of lovely wild flowers turning some secluded spot along the highway or in a national park into a place of almost breathless beauty.

Attended Memorial Service

Representatives of the Canadian Government and the British Legion joined with a number of residents and visiting citizens of the United States, in attending a brief memorial service in the American cemetery at Rockwood, England. Hundreds of U.S. soldiers were buried at Rockwood during the great war.

Why Judges Get Grey

Judge (to witness): "Repeat the prisoner's statement to you, exactly in his own words. Now, what did he say?"

Witness: "My Lord, he saith he stole the pig—"

Judge: "Impossible! He couldn't have used the third person."

Witness: "My Lord, there was no third person!"

Judge: "Nonsense? I suppose you mean that he said, 'I stole the pig!'"

Witness (shocked): "Oh, my Lord! he never mentioned your Lordship's name!"

Foreman: "Yes, Pat, I told you to start this morning, and bring your mate along with you, but where's your mate?"

Pat: "Shure, sorr, I ate me 'mate' coming up the road."

Each group of 60 persons in an audience or congregation gives off heat equivalent to that of an average-size steam radiator.

Send Message To Dominion

School Children Of London, England, Greet Canadian Children

One thousand scholars of the Elementary Education Schools of London, England, participating in an Empire Day celebration in the famous Guild Hall, attended by the Lord Mayor of the Imperial capital, passed by unanimous resolution a message of greeting and affection to the school children of the Empire.

The text of the resolution communicated to Hon. P. C. Larkin, Canadian High Commissioner in London, by Rt. Hon. L. C. M. Amery, Secretary of State for Dominion Affairs in the late Baldwin government, and forwarded to the Prime Minister of Canada, Rt. Hon. W. L. Mackenzie King, was transmitted by him to the provincial authorities. Steps have been taken to ensure that the London resolution reaches the school children of every province. The message reads as follows:

"Moved by the chairman and carried unanimously: Mr. Lord Mayors, Ladies and Gentlemen—I have the honor to propose that a message of greeting and affection be sent on this Empire Day to the children of the Empire. It is a wonderful and inspiring thing to remember that we children in the heart of the Empire are joining with those in the uttermost parts of the earth in this celebration, thus showing the unity of our peoples and the loyalty we all cherish for King and Empire."

Building Up Sheep Flock

Judicious Care Should Be Exercised In Selection

Beginners in sheep raising are recommended by the Department of Agriculture, at Ottawa, to practice judicious care in the initial selection of foundation stock and the subsequent breeding operations. While every breeder would do well to aspire to produce a distinctive type it should be remembered that the ultimate destination of the lamb and wool crops is a profitable market, and this should inspire an effort to build up a flock of high utility type. Beginners are advised in Pamphlet No. 106, issued from the Department of Agriculture, to call upon the assistance of the sheep promoters established at different points finding desirable foundation ewes and when buying rams to take advantage of the work that has been done by the Department graders in classifying the rams that are offered for sale according to their quality.

Girl Freed By Soviets

Was Kept Prisoner By Parents For Twenty-One Years

Soviet authorities have liberated a 27-year-old peasant girl whose parents kept her locked in a barn for 21 years because they erroneously believed she was a leper.

The girl, when accidentally discovered and released in the Tashkent district village of Tchuyyn-Toba, appeared to be a wrinkled old woman, her hair was grey and her skin wrinkled. She was half-blind and undeveloped mentally, officials reported.

She was found to be suffering from a minor skin disease which is easily cured. The peasant parents said they had locked her in the dark room in 1908 because they feared the natives would stone and drive her away if they discovered she had leprosy.

Canadian Honored

Dr. Arnold Armour, well-known Canadian practising in England, received one of the highest honors that can be offered to a member of the medical profession in the British Isles, when he was unanimously nominated by the council of the Medical Society of London as its president.

Too Realistic

"All the mechanical toys you make seem to be successful."

"Yes," said the inventor. "I have had only one failure."

"Ah! What was that?"

"A toy tramp. It was too realistic; it wouldn't work."

A petroleum pipe line will be constructed across the Syrian Desert.

Dust Makes Long Journey

Australian Soil Travelled 2,000 Miles Through Air To New Zealand

One of the most unusual dust journeys on record was that made by many tons of Australian soil which travelled more than 2,000 miles through the air to New Zealand, according to recent reports. The greater part of the journey was over water. In many parts of New Zealand during the first falls, when the dust was brought down by rain, the mixture was referred to as mud rain. Some of it fell on sweaters of players during a football match, and so discolored them that it was difficult to pick out the garments of the different teams. Although not the first dust storm to travel from Australia to New Zealand, the deposit was remarkable both for quantity and the area over which it was recorded.

HEALTH REGAINED

Mother and Daughters Restored Through the Use Of Dr. Williams' Pink Pills

"Contrary to what my friends once thought, I am still living," says Mrs. Norman White, New Canada, N.S. "and I give the credit to Dr. Williams' Pink Pills. I had been a sufferer for some years. I was weak and run-down; my heart would palpitate violently at the least exertion. I grew so weak that I could not do my housework. I was under a doctor's care, but it did not benefit me. A second doctor was called in, but with no better result. I was told that I was almost bloodless, and I became so weak I was forced to remain in bed. My friends did not believe I could recover. While in this condition a neighbor strongly urged me to try Dr. Williams' Pink Pills. It was like grasping at a straw, but six boxes of this medicine were got for me, and by the time I had taken them I was able to sit up. Another six boxes were got and soon I was able to go about, my health steadily improving. I continued the use of the pills until I felt my health fully restored. I still take the pills occasionally as a safeguard. My two daughters have also used the pills with the most beneficial results. The trouble in both cases was the anemia that so often comes when girls are entering womanhood. Under the use of this medicine both fully regained health, strength and activity. You can see, therefore, that it is impossible for me to praise Dr. Williams' Pink Pills too highly, and I hope every weak person who may read this will benefit by my experience."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Model Summer Resort

Alberta Government To Investigate Site Forty Miles West Of Calgary

The Alberta Government has appointed a committee to investigate the proposed model summer resort at Ghost Lake, forty miles west of Calgary on the Bow River. The plan is idealistic in that it provides for summer homes for the working classes for the very lowest cost. The Calgary Power Company, the Government and Calgary citizens' committee are co-operating in the project which is non-profit making.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Quite In Favor

A canvasser, approaching a hefty-looking navvy, asked him whether he was in favor of returning a certain candidate to Westminster.

The navvy took his pipe out of his mouth, gazed at the canvasser without enthusiasm, and said, "Yus, it that's where he comes from."

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Using Many Pulpstones

Over half a million dollars worth of pulpstones are used annually in the 60 Canadian pulp mills.

Alberta Town Planning Scheme

Most Progressive Plan To Be Found On the Continent Of North America

The most progressive town planning scheme to be found on the entire continent of North America was that recently established by the province of Alberta, H. L. Seymour, C.E., told the members of the Town Planning Institute of Canada at a meeting in Winnipeg.

The laying out of rural parks, picnic grounds, tourist camps and school grounds, of fair grounds and hospital grounds, was all provided for; advice to cities, towns and villages on their planning problems was available; and the service of the board was open to farmers in helping them to lay out homesteads, grouping buildings or installing running water. It was a service extending all over the province, Mr. Seymour said.

All this had been made possible by the support of the people of the province. The inspiration had come from the premier, who, on his visit to England in 1927, saw the beneficial effects of town planning as it is being carried out in the Old Country.

Wheat Pool Development

Saskatchewan Pool Estimates 175,000,000 Bushels Of Grain Will Be Handled This Season

Combined handlings of wheat and coarse grains by the Saskatchewan Wheat Pool during the 1928-29 crop year will amount to approximately 175,000,000 bushels, according to an estimate presented to delegates in attendance at the semi-annual meeting of the organization at Regina.

A tabulated statement showing the handlings by the pool of various kinds of grains during past years, together with an estimate of the total handling for 1928-29, indicate that this season will far surpass former dealings.

A thorough review of the development of the Saskatchewan Wheat Pool elevator system, however, was given in the report of the board. Delegates were presented with a financial statement, showing the capital position of the organization, as to its ability to finance further extensions of the country elevator system.

Largest Gypsum Producer

Nova Scotia Is the largest producer of gypsum in Canada followed by New Brunswick, Ontario, Manitoba, and British Columbia.

South Africa produces 90 per cent. of the world's diamonds.

British Preferential Treatment

Increasing Trade Is Shown With 29 British Countries

Since 1921 there has been an increase of nine British countries which enjoy customs tariff preferential treatment, while in the same period the number of foreign countries to enter into mutual compacts in this connection rose from 14 to 43. This is shown in a return tabled in the House of Commons, in which it is also noted that in the fiscal year 1921-22 Canada exported to the 20 British countries enjoying preferential rates \$317,585,982 worth of commodities while in the fiscal year 1928-29 this had increased to the 29 British countries to \$503,864,623.

Start Education Campaign

W.C.T.U. Will Discuss In Sunday Schools Effects Of Alcohol As A Beverage

A national education campaign through the Sunday schools of the Dominion as to the nature and effects of alcohol as a beverage will be conducted by the Women's Christian Temperance Union it was decided at the third session of the Dominion convention of the union. Mrs. Gordon Wright, London, Ont., was elected president for the next two years, and Mrs. Louise McKinney, Claresholm, Alta., vice-president. Mrs. T. H. Wright, Hazelton, B.C., was chosen national secretary and Mrs. James Mabon, Montreal, national treasurer.

Dust Causes Asthma

Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Photographing Canada

During the 1928 season, 92,000 photographs were taken from the air for the use of Dominion Government Services. Copies of these were filed in the office of the Topographical Survey, Department of the Interior. The complete file at the present time contains 254,000 individual prints.

Manufacturing in the West

Value Of Production In Three Prairie Provinces Reaches Large Figure

Reporting for the prairie division of the Canadian Manufacturers' Association, H. B. Lyall, of Winnipeg, said at the convention at Halifax, that the value of the products of manufacturing industries in Manitoba, Saskatchewan and Alberta, in 1928, exceeded \$325,000,000. Two major developments noted by Mr. Lyall were the utilization of the mineral wealth of Northern Manitoba, and the development of the Alberta oil resources.

In Radio Language

The youngsters are quick in picking up and applying new terms and expressions. Walter's baby sister was making a great clamer because she couldn't have her own way. "Aw, just let her alone and let her holler," advised Walter. Then he added hopefully, "She'll be signin' off in a minute."

"What are you studying, John?" asked Aunt Maria.

"Economics."

"I don't see no use in studying that stuff. If it's forced on you, you gotta practice it."

Each group of fifty persons in an audience or congregation gives off heat equivalent to that of an average size steam radiator.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

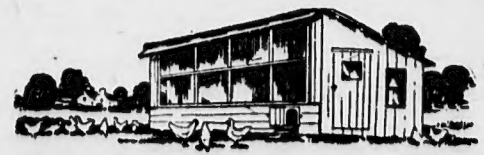

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and is easy to fit. **WINDOLITE** is supplied in rolls any length but in one width of 36 inches only. A square yard of **WINDOLITE** weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved **WINDOLITE** requires no varnish. **WINDOLITE** is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use **WINDOLITE** and let

DOMINION DAY

From the wave-washed wharves by
Fondy tide,
To the snow-crowned Western hills
The flags float high on our natal day
And the soul of the nation thrills.
The crosses bend in the summer
breeze
And from each crimson field
Flows the loyal faith to our God and
King
That a free-born people yield.
There's a richness poured from your
golden fields;
There's a wealth in our wood and
mine;
Not from these alone glows our con-
scious pride—
'Tis the glory of birth and line.
For we hold with our kin across the
seas
From whence our lives came,
By right of birth, by deed and faith
And common pride of name,
And the free hold title of kindred
trust
That weld our nationhood
Were sealed on the altars of sacrifice
By the sons of our race and blood
So we lift our heads with a prouder
grace.
While the Jacks are flying free,
On the day we keep with a firmer
faith
In the Land of the Maple Trees.

ECHOES OF GLEICHEN
TWENTY YEARS AGO

Taken from the Call in 1909

Construction work on J. Burr's sale
stable is going ahead rapidly.
Geo. Pyle, wife and daughter of
Dorothy spent Monday in town.

W. G. Service is erecting an ad-
dition to his blacksmith shop.

Mrs. Burkholder was down from Cal-
gary visiting Mrs. Harrison a couple
of days in the spring.

Sergt. McLeod and T. Henderson's
new residences on Gleichen street are
nearly completed.

Mr. Walsh arrived from Crookston,
Minn., on Monday to look after his
farm interest in this vicinity.

D. Scholtes of Toronto and F. Allen
are billed tonight a lively boxing con-
test in the old bowling alley tonight.

Cecil Frith had the misfortune to
fall from a gate on which he was
swinging and broke his arm last
Thursday.

The Post Office was moved into the
new Gleichen Trading Company's build-
ing Tuesday night, and W. H. Mc-
Kin is taken charge as postmaster.

Rev. John McDougall spent a day
in town last week arranging with the
Indians here to go to Calgary, for
the exhibition and they are now riding
up in large numbers every day.

Chas. Barbach shipped another to
head of cattle last Thursday to Law-
son. They were an exceptionally
bunch, averaging 1710 pounds per
head.

F. G. Mortimer returned Friday
from a visit to his home in England
where he spent the winter months.

Geo. Goodham returned home on
Monday from the Toronto university to
spend his summer vacation.

The C.P.I.C. Co. on Tuesday raised
the price of their land from \$15 tolls
per acre for non-irrigated land and
from \$20 to \$30 per acre for irrigated
land. The company find it quite
impossible to keep the survey and
ditches ahead of the demand to pur-
chase land in this district.

D. C. Winhart has materially im-
proved the Gleichen Library. Fred &
Sole Stables with a coat of paint. S.
H. Frith and R. Rowe the artists.

The bee Tuesday to improve the race
track was a grand success and a great
amount of good work was performed.
So pleased are the directors that an-
other will be held tomorrow, Friday,
when it is expected that this work
will be completed.

What might have proved a very
disappointing loss in life and property

at the meeting of the Council Tues-
day Evening about the only business
transacted was the letting of the con-
tracts for repairs and new sidewalks.
Geo. W. Wakefield's tender proved
the lowest and consequently he was
awarded the contract. It calls for 93
yards of sidewalk four the Palace Ho-
tel to beyond J. A. Beaumont's store,
and 95 yards of walk and a crossing
from Fifth Avenue to the Methodist
Church. Also a new crossing be-
tween The Gleichen Trading Com-
pany's store and the Calgary Block.
Work on the contract has already been
started.

FROM THE CALL 1909
Ben Wharft expects to move his
family here next week.
Bridges and Weaver had the mis-

**In the Days
of Mary
Queen of Scots**

In previous advertisements
we have traced the progress of
the art of brewing from 500
B.C. to the 13th Century when
Brewing on Trest became famous
for at that time it was more
than the drink of the common
people.

When Mary Queen of Scots
was imprisoned in Tully
Castle, Westminster, in 1570,
the turn-out of food that year
was more than the drink of the
common people.

She had her secretary en-
quire "What place does the
brewer's name in the castle?"
The answer was "The
castle, replied: "Beer may be
had at Tully Castle."

Today malt beverages
BEER - ALE - STOUT
are considered health
drinks.

Where BEER has once been introduced, it
has generally become the national
beverage.

fortune to lose a valuable horse last
week.

On account of the increase in busi-
ness the Nakama House has installed
a new "Chink" cook.

Edward Stevens is now building lum-
ber for his buildings to be erected
near the new school house.

Butter an eggs are very scarce in
Nakama, the supply not nearly keep-
ing up with the demand.

The carpenters are busy at Nakama
erecting a building 24x36 ft. which will
be occupied as a pool hall. The
building will be completed by July 10th.

The carpenters have the frame of
the new pool hall raised, which im-
proves the appearance of the Main
Street very much.

J. P. Lawrie has been appointed
corp correspondent for Nakama to
succed Edward Stevens, who has giv-
en his time to it for several years.

W. W. Wakefield has the contract
for the erection of a house on the
farm of Harold Woodard 2 miles west
of Nakama. Work on the building will
be commenced at once.

Like all people who come to Nakama
to give it a trial, it only took our black-
smith two weeks to realize he had
struck a good thing. He is now pre-
paring to build a house and move his
family here from Calgary.

Morris Adler owner of the Nakama
farm arrived here last Sunday. He
was agreeably surprised by the great
change in Nakama since his last visit,
and very much pleased with the suc-
cess on his farm and the surrounding

Rev. Lee of Gleichen. He was gres-
sed by a good congregation and will
hold services every Sunday at 8:15
p.m.

The new school house was opened
Sunday with services conducted by

Saskatchewan and Alberta To Share Alike In Resources Settlement

Ottawa.—The Dominion government is now prepared to accord to Alberta and Saskatchewan, in settlement of the natural resources question, "treatment similar to that granted to Manitoba with respect to the continuance of Dominion subsidies."

It was stated by the prime minister that the Dominion government having in mind negotiations now pending with the provinces of Alberta and Saskatchewan, and the representations of the governments of these provinces with respect to the continuance of the payment of subsidies in accordance with the terms of existing legislation, is now prepared to accord to Alberta and Saskatchewan, in settlement of the resources question, treatment similar to that granted to Manitoba with respect to the continuance of Dominion subsidies.

The report recommends that Manitoba shall be paid the sum of \$4,584,212 in cash as the balance due for past arrears covering the period during which the resources have been alienated. It also recommends that from now on until the population of Manitoba reaches 800,000, the province shall receive annually the sum of \$562,500. When the population reaches 800,000, the report proposes that this amount shall be decreased to \$750,000 per annum. Finally, when the population increases to 1,200,000, the amount payable annually will rise to \$1,125,000, and remain unchanged thereafter.

Subsidies must be paid from the treasury and the country generally must provide the cash. It has been demonstrated frequently that the eastern provinces of Canada consider themselves very important parties to any settlement which is made of the natural resources question. Treatment must be fair to both east and west.

The function of the commission was to ascertain what financial readjustment should be made for the purpose of placing Manitoba in a position of equality with the other provinces of Confederation in respect to the administration and control of its natural resources. The report is the commission's answer to this question.

Canada's Forest Wealth

Will Take Inventory Of Forest Resources As Preliminary To Reforestation Plans

Ottawa.—Federal and provincial governments of the Dominion are co-operating for the purpose of taking an inventory of Canada's forest resources. Today, Hon. Charles Stewart, minister of the interior, opened a conference attended by three provincial ministers, as well as by several federal and provincial officials, which will endeavor to arrive at the actual forest wealth of Canada.

In his brief opening address, Mr. Stewart pointed out the importance of this step as a preliminary to reforestation plans.

Name Canadian Destroyers

Vessels To Be Called "Saguenay" and "Skeena"

Ottawa.—The two new Canadian destroyers are to be named "Saguenay" and "Skeena." Hon. J. L. Ralston, minister of national defence, has announced. The vessels are being built at Southampton by Thornycroft, Limited, at a combined cost of approximately \$3,000,000 and are expected to be completed in two years. They will replace "Patriot" and "Patrician," which were declared obsolete and were sold some time ago to be scrapped.

Stowaway Returns

New York.—The stowaway of the "Yellow Bird," Arthur Schreiber, of Portland, Maine, returned to the United States aboard the Leviathan recently first-class, attired in extreme cut French clothes, but with little to say about himself or his uninvited trip. He was met at quarantine by his father, Morris Schreiber, a Portland fur worker.

For Crippled Children

Geneva, Switzerland.—A world conference of workers for crippled children, to be attended by public officials, scientific men and social workers, will be held here July 28 to August 2.

W. N. U. 1792

To Find Solution Of Naval Problem

Premier MacDonald Is Very Hopeful Of Ultimate Outcome

London, England.—Premier Ramsay MacDonald made known he hoped before many days it would be possible to make definite announcement of how naval disarmament negotiations were to be conducted, where a conference would be held, and the precise objects of that conference.

He was speaking at a Labor reception held at the Friends' Meeting House, in Euston Road. At the same time he disclosed that he had had a second conversation with General Charles G. Dawes, new United States ambassador to Great Britain, and had seen Hugh S. Gibson, United States ambassador to Belgium, who arrived in London to assist General Dawes in finding a solution to what has been termed the out-standing issue between the two English-speaking peoples.

Premier MacDonald, while very brief, was extremely hopeful. After he referred to the great political victory Labor had won and the general position of his government, remarking that there would be no miracles and no magic, but a sincere determination and courage to face public questions, he plunged immediately into his revelation.

"We have allowed no grass to grow under our feet. We have already started conversations with the United States."

"I am not a prophet, and am not going to pose as one able to prophesy. I am convinced of this, that the obstacles that have been in the way of an understanding have been created, if I may ring the changes on one English word, by a lack of understanding of each other. The great thing which is wanted in the world today is capacity of different peoples, different races and different nations, to put themselves in each other's shoes. That will be one of the things that we shall try to do in the conduct of these negotiations."

Crop Conditions Good

But Not Up To Last Year Says C.N. Official

Montreal.—Crop conditions throughout Western Canada, although excellent in certain districts, are not generally as promising as at this time last year, stated Dr. W. J. Black, director of colonization and agriculture of the Canadian National Railways, who has returned from an official tour of the west. Notwithstanding this, however, conditions generally are more prosperous than for some years in Western cities, said Dr. Black.

There is a tremendous area under cultivation this year throughout the entire Peace River country and land settlement has been going forward there at an enormous rate. Settlers have even gone in large numbers as far northwest as the Fort St. John district and they appear generally to be a fine lot of people.

Posthumous Award For Bravery

Rome.—The gold medal for bravery was conferred posthumously on Dr. Finn Malmgren, noted Swedish scientist, who died while attempting to summon aid after the Polar dirigible Italia crashed in the Arctic, a year ago. The government assigned the scientist's mother, who lives in Sweden, a pension of \$500 yearly and sent her documents gathered by an official investigating commission and paying glowing tribute to Malmgren's heroism.

Enters Libel Action

Toronto.—Frank Jones, Toronto, has taken out writs at Osgoode Hall alleging libel by means of a photograph against a local bread company and photographic engravers. The photo published in local newspapers represents Jones eating a sandwich on a building under construction and attempts to show the nourishment derived by outdoor workers who eat this brand of bread.

Market Commissioner

Victoria.—The Hon. T. G. Coventry, former M.L.A. for Saanich, and son of the Earl of Coventry, has been made market commissioner in London, for the British Columbia Government, it is understood. His main business will be to build up the demand for Okanagan fruit.

Damage By Storm Cannot Be Computed

Cost Of Semi-Tornado In Montreal District Will Run Into Millions

Montreal.—The full story of the electrical storm and semi-tornado which swept down from the north, spreading death and destruction in its path from the Laurentians to the eastern townships, remains to be written. The death toll stood at seven but news from the Laurentian district north of Montreal was only fragmentary owing to continued disorganization of communication lines. Total damage caused by the storm will never be completely computed, but it is extensive and probably runs well into the millions. \$1,000,000 worth of damage alone having resulted when lightning set fire to the Sacred Heart convent at Saint au Recollet, near here, and completely destroyed that widely known educational institution.

Oldest Odd Fellow Dead

Andrew Wickett, Vancouver, Was Member For Sixty-Five Years

Vancouver.—Andrew Wickett, aged 92, a member of the Independent Order of Odd Fellows for more than 65 years, and said to be the oldest member of that order, is dead here. Mr. Wickett was born in Ontario and became a member of Aylmer Lodge No. 90, I.O.O.F., Aylmer, Ont. As a young man, and to his death, he retained his connection with the lodge. He was a retired lumberman.

MAY RESUME TRADE RELATIONS WITH MOSCOW

London, England.—One of the first acts of the new Labor government has been to cable the announcement to all the Dominion governments of the British Empire that Great Britain intends to resume diplomatic relations with Soviet Russia in the near future.

Political observers believe the Labor ministry's move will receive sufficient support from Conservative and Liberal members of Parliament to assure approval of British diplomatic relations with Moscow.

It has long been known the Labor party was in favor of renewing diplomatic and trade relations with Russia, broken off by the raid on Arcos House, London, headquarters of the Russian commercial mission made by late Conservative government in May, 1927.

Although His Majesty's government is not technically dependent on approval of its new Russian policy by the Dominions, the co-operation of other parts of the British Empire is ardently desired in London.

Well-informed persons think resumption of relations with Russia will be proposed in the King's Speech from the Throne, July 2, which will announce the program of the government.

It is thought the government may count on support from both opposition parties, since the leaders of the Liberal party severely criticized the Baldwin government for its break with Russia. Among many young members of the Conservative party there is strong sentiment for getting on normal terms with Russia.

NEW C.N.R. HOTEL FOR VANCOUVER

The finest hotel on the Pacific coast is now under construction in the heart of Vancouver for the Canadian National Railways. The excavation for the foundations has been completed and the steel contract awarded and work will be pushed vigorously until the hotel is ready. This fine building, which will occupy a prominent place in the downtown section of the city, will be known as The Canadian National Railways Hotel. It will contain five hundred bedrooms and will be wholly modern in all its facilities. The photograph shows the architect's conception of the new hotel as it will appear when completed.

General Charles G. Dawes, new U.S. envoy to Great Britain, who discussed the question of naval disarmament with Premier MacDonald.

Rum Running Wanes

Significant Drop In The Export Of Liquor Is Reported

Windsor, Ont.—Canadian customs returns for the current month should show a significant drop in the exports of liquor from the Essex border docks, according to reports of the United States authorities.

Imports at the one-time notorious liquor receiving depot of Ecorse have been cut to a fraction, according to customs patrols, while the occasional rum boat on the American side of the Detroit river is more or less of an oddity these nights, they say.

Considerable liquor, however, is getting through below Ecorse on the Trenton front, guarded by the greyhounds of the "dry" navy, the United States coast-guard cutters. The rum boats are shooting out from Amherstburg into the lake and there are no government boats in adequate numbers to stem the tide.

But this situation is to be remedied, according to plans announced. More than fifty boats of all descriptions are to be in service by July 1. It was reported, ranging in type from launches to the 70-foot speed boats, carrying one-pound guns and useful for long chases.

Declares Strcseemann Fa'hure

German Foreign Minister Faced By Non-Confidence Vote

Berlin.—Dr. Gustave Stresemann, German Foreign Minister, in a vigorous reply to severe Nationalist criticism, told the Reichstag Germany would not stand for the installation of a commission in the Rhineland as the price of its evacuation.

When he debate was finished for the day the Nationalists introduced a motion of no confidence against the Foreign Minister, declaring his five years in that post had been a failure.

Famous Movie Dog Dead

Hollywood, Calif.—"Strong Heart," dog hero of the movies, died at the home of his owner, Miss Jane Murfin. He was 12 years old. A complication of diseases, following an operation several months ago, caused his death. Trained in the Berlin police kennels, "Strong Heart" served with the German Red Cross during the Great War.

Stockmen Protest Against Land Sales

Grazing Leases Said To Be Unsatisfactory To Cattle Men

Swift Current.—As a result of the Saskatchewan Stock Growers' Association Convention, held in this city, the stockmen of the province are taking action in several matters of importance to the ranching industry. The school lands grazing leases are anything but satisfactory to the cattle men, it being contended that government regulations regarding such leases have been changing so frequently that ranchers do not know where they stand in the matter from year to year, the latest action being the offering for sale of school lands used for grazing.

The Dominion Department of Agriculture is being asked to make a survey of the Dominion to ascertain the most suitable districts for winter feeding in the interest of the stock-raising industry.

Wins Hungarian Derby

Horse Sold For Seventy Dollars Captures Coveted Prize

Budapest, Hungary.—Condemned and sold a few months ago by his former owner for \$70 because he considered him "fit only for the plough," a three-year-old horse named Rabalo walked off with the Hungarian National Derby and a \$10,000 prize against a field of 21 of the country's thoroughbreds.

When Rabalo's old master consigned him to the farm he was bought by a local tavern-keeper, who found him too short to hitch to a cart. He turned him over to a friend, who, after a few months' training, prepared him to race again, the action culminating when he assumed the proudest place on the Hungarian turf.

GRAIN DRYING DETAILS GIVEN TO COMMISSION

Winnipeg.—The suggestion that two standards for grain grading be established—one for grain destined for the eastern seaboard and the other for westbound cargoes, did not receive the approbation of James D. Fraser, chief of the grain inspection department, when counsel for the Saskatchewan Royal Grain Commission asked his opinion of the proposal during the commission's sitting here.

"I don't see how two grading standards can be applied," declared the inspector chief for the western division. "Once the standard is set by the board it must be maintained regardless of its destination."

Technical knowledge of grain drying was given the commission by Dr. Wm. E. Geddes, professor of agricultural chemistry at the University of Manitoba, who was a member of the associate committee of national research on grain drying. Declaring that grain can be dried from any state, Dr. Geddes pointed out that according to the conclusions reached by his committee the safest manner in which to dry grain was by a continuous discharge of grain through the dryer. Batch drying, he said, was found not suitable.

On Chief Brown's suggestion that bleached wheat could be tested before sold, Mr. Fraser replied that the only tests which could be made would be those of milling and baking.

"And to mill and bake wheat for testing purposes would be a great obstruction to the grain movement during the 'rush season,'" he added. The tests would take about two days, he thought.

To convince eastern and overseas buyers that damp wheat, when dried in elevators, is as good value as straight graded wheat of the same grades, Mr. Fraser thought the inspection department would have to be given complete supervision over all grain drying. If the wheat is properly heated, the color of kernel would be changed, he told the commission, but not the protein value. He thought that if the inspection department marked heated grain it would be accepted by buyers. The damage to tough and damp grain is all done during the heating process, the commissioners were informed.

Asked if he favored abolition of mixing in all grades, Mr. Fraser would not reply. He thought however, that prohibition of mixing would materially lessen the labors of his department, though he doubted whether the present uniformity in grades would be upheld.

Sapiro Recommends One Hundred per Cent. Wheat Pool Control

Authors Meet In Halifax

Report Shows Canadian Association Has Over Eight Hundred Members

Halifax.—Papers dealing with the contribution made to the literature of Canada by British Columbia and the Maritime provinces featured a session of the ninth annual convention of the Canadian Authors' Association here. A paper written by A. M. Pound, of Vancouver, dealing with the work of authors resident in British Columbia, was read by Percy Gomers, novelist and banker, of Vancouver, while Professor Archibald MacMeehan, head of the English department at Dalhousie University, and vice-president for Nova Scotia of the Canadian Authors' Association, traced the literary movement in Nova Scotia from the early days of the 19th century.

The secretary's report showed a membership of \$36 in 11 branches.

Scores Killed By Storm

Belgrade, Jugo-Slavia.—Press despatches from Jugo-Slavia point tell of more than 100 persons killed in the last fortnight by violent recurring lightning storms. Thousands of cattle have been carried away by floods with immense damage to orchards and vineyards.

Riel Veteran Dead

Winnipeg.—A participant in both Riel rebellions, George Buchanan, 82, who came to the West as a member of the Red River expedition under Sir Garnet Wolseley, is dead at his home here.

SUNDAY SCHOOL LESSON

JULY 7

THE STORY OF EZEKIEL

Golden Text: "As I live, saith the Lord Jehovah, I have no pleasure in the death of the wicked; but that the wicked turn from his way and live."—Ezekiel 33:11.

Lesson: Ezekiel 1:1-3; 2:1 to 3:27; 8:1-4; 11:22-25; 24:15-21; 33:30-33. Devotional Reading: Psalm 121.

Explanations and Comments

Ezekiel's Vision, Call, and Commission, 1:1 to 2:7.—In the first chapter Ezekiel describes the indescribable—the complicated vision which he had of God—the wonderful chariot, the fiery cloud, the four living creatures, in their midst the perpetual flash of lightning and the glow of fire, above them the crystal firmament, on it a sapphire throne, and on the throne Almighty God, Himself.

The prophet fell prone upon his face, till the awful silence was broken by the voice of God bidding him stand upon his feet and receive his commission for service.

"More important than the attitude of worship is the attitude of readiness for action."

"And the Spirit entered into me when He spake unto me, and sat me on my feet," Ezekiel declares. "This is the divine energy, enabling a man to come to the height of his manhood, and so to find readiness to hear the word of the Lord."—G. Campbell Morgan.

The service to which God called the prophet was to proclaim to the rebellious people the divine message, the "Thus saith the Lord Jehovah." The Israelites have been rebellious throughout their national history; they are imprudent and stiff-hearted and they may not listen, but the prophet must not be disturbed by their words and looks, even though there are "briers and thorns" and he dwells "among scorpions"—symbols of the opposition he may meet.

Ezekiel's Inspiration, 2:8 to 3:3.—That Ezekiel was divinely inspired, that the message which he was to proclaim was communicated to him by God, is symbolized by his eating at God's command a book [roll] on which was inscribed God's message. "The lamentation, mourning, and woe inscribed in the visionary book do, in point of fact, faithfully describe the general contents and temper of Ezekiel's message throughout the earlier part of his ministry and the first half of his book, that is, down to the fall of Jerusalem."

"This conception of inspiration implies that the message he is to deliver must be his own. It is God's ultimately, but Ezekiel must make it his own, work it into the very life of his being, assimilate it, as we should say—this is the meaning of the strange language of 3:3—until it is himself that he is uttering. When he eats the roll, bitter as are its contents, it is as sweet as honey in his mouth, for it is sweet to do the will of God, to be trusted with tasks for Him."—A. S. Peake.

"This finely suggests that the co-operation of man is indispensable and the adequate reception of a message from God. The roll is a gift of God, but the man has to eat it. The message is, we may say, supernaturally communicated, but it has to be appropriated and assimilated. The man has to make the gift of God his own."—J. E. McFadyen.

Saskatoon.—"Your Pool needs one experiment of five years of pure co-operative marketing and I come with all sincerity to tell you that the next step is for a 100 per cent pool."

These were the messages brought by Aaron Sapiro, co-operative marketing expert, who addressed a large audience here under the auspices of the United Farmers of Canada.

In his opening remarks Mr. Sapiro announced that his subject would be "100 Per Cent. Pool Control." He told the gathering that he was not here under the auspices of the Wheat Pool, but at the request of the U.F.C.

The fact the Wheat Pool board had gone on record in opposition to the 100 per cent pool was no reason at all in his mind why the question should be considered as a dead issue, he said. Although that was what he had been repeatedly told since arrival in Saskatchewan, the speaker declared.

"And the 100 per cent pool is far from dead," he emphasized, "regardless of who wants to put it under the ground."

At the outset, he contended that a 100 per cent pool was not only proper, but absolutely essential for true co-operation. It merely meant, he explained, that when two-thirds of the farmers, or those who controlled two-thirds of the acreage wanted co-operative marketing, that all wheat grown in the province would be delivered to the pool for a period of years.

The legislation, which would be of a permissive nature, might be either provincial or Dominion. He was not concerned with the specific form of the law. The whole question was whether the farmers wanted a purely co-operative system or wanted one that was spiced with speculative agents.

Grain dealers, Mr. Sapiro said, would naturally be opposed to the idea of a 100 per cent pool. Also those in hook to the grain dealers, but he could not understand why co-operative lenders should be opposed to the idea.

Railways Paid Large Sums

Washington.—Canadian railroads took \$10,000,000, in round figures out of the United States as freight charges on United States commodities shipped over Canadian lines in 1928. These figures are contained in a pamphlet on international payments put out by the Department of Commerce. On the other hand, Canadians paid about \$14,000,000 to United States roads for similar transport.

United Thanksgiving Service

Ottawa.—Churches of Canada are invited to unite with those of other parts of the Empire in thanksgiving services for the recovery of His Majesty the King on July 7. The cabinet passed an order-in-council constituting the official invitation. Each church will be asked to conduct its own services.

Used Primitive Methods

Port Arthur, Ont.—Throwing a stone at a big bear which he had surprised in the act of robbing his catch of pike, Paul John, Indian trapper, saw the stone strike and stun the animal. He then rushed at the animal with a hunting knife, and, burying it in the bear's throat, killed it.

Russian Nobility For West

Quebec.—On the "Empress of Australia," arriving last week, are Prince and Princess Leo Galtzine, members of the Russian aristocracy who have been living in Paris since the revolution. It was stated they would take up farming in the west under auspices of the Canadian Pacific Colonization Department.

Re-Elected As Speaker

London, England.—The new British Parliament held its first session under the Labor government and re-elected Captain E. A. Fitzroy, Conservative, as the Speaker. Not a vote was cast against the popular presiding officer, who was lauded in the nominating speeches for his impartiality.

Population Decreases

London, England.—England and Wales have decreased in population by 44,112 persons in the first quarter of this year which, when compared to an increase of 31,611 persons for the same period of 1928, is paying some alarm.
